A message from Mayor Bernstein. . .

Before I started to compose this message, I looked back to see what was happening in Allendale last year...February 2021. One year ago, we were digging out of one of the largest storms we had in a while. Funny enough, one year later we were digging out as well; granted a much smaller storm. This gives us all an opportunity to thank the hard-working crews of our DPW and Emergency Services for their great work to ensure that we are quickly cleaned out and up and running after each and every storm. I heard from many residents about how pleased they were with our roads in Allendale after the last snow storm. I wholeheartedly agree. Our DPW and Emergency Services crews did a fantastic job. Thank you!

Due to the winter weather, our Free Rabies Clinic has been rescheduled to Saturday, February 12th from 1pm to 3pm at the Red Barn at Crestwood Park. Due to this rescheduling, we have extended the deadline to register your pet until Monday, February 14th at 4pm. Late fees will go into effect starting Tuesday, February 15th. We will have on-site pet licensing at the clinic as well. Full details are on the flyer in this edition of Happenings.

On the COVID front, thankfully we are seeing the numbers on the decline from the spike we saw through January. In response to that spike, we made the decision to close Borough Hall to the public to help stop the spread and ensure that our employees and residents were safe. I am happy to report that Borough Hall is back open to the public. I want to thank the residents and employees for their understanding during that time. Even though Borough Hall is open to the public, I also encourage everyone to continue utilizing [our website](#) as a lot of information is available and many applications can be done on-line.

Just a reminder that on March 8th there will be a Referendum for the Northern Highlands Regional High School. Voting will be from 6am to 8pm. Full details can be found in this issue.

We are already one month into 2022. Spring and Summer will be here before you know it! Stay safe and warm everyone!

**IF YOUR CAR LEAKS
OIL IN THE DRIVEWAY,
YOU MIGHT AS WELL
LET IT LEAK IN THE OCEAN.**

**Rain washes pollutants into storm drains which flows directly into our streams, lakes, rivers and the ocean.
So what can you do?**

www.cleanwaterNJ.org

WHAT'S THE PROBLEM WITH MOTOR OIL?

Oil does not dissolve in water. When motor oil runs into storm drains either from changing your car's oil or from leaky cars, it goes directly to our lakes, rivers and the ocean. Oil and other petroleum products are toxic and can contaminate your drinking water, as well as kill fish, wildlife and plants. Did you know that one pint of oil can make a slick larger than a football field? Used motor oil is the largest single source of all oil pollution in lakes, streams and rivers. Americans spill 180 million gallons of used oil each year into our waters.

YOU CAN HELP!

- Keep your car well maintained.
- Regularly check your car for leaks and schedule tune-ups. If you find leaks or drips, have your car repaired.
- Take your car to a service center to change oil.
- If you do change your own oil, do it in a garage, never on the street. Use a self-contained oil pan and discard the oil at a local service center for recycling.
- NEVER discard oil, gas, or antifreeze into a storm drain.
- If you spill hazardous fluids, contain it immediately with rags and cat litter. Clean up the spill and properly dispose of the waste.

WHY SHOULD YOU CARE ABOUT CLEAN WATER?

Stormwater pollution is one of the greatest threats to New Jersey's clean water supply. Clean water provides access to safe drinking water, a place for recreation, commercial opportunities, healthy wildlife habitats, and adds beauty to our landscape. Rain washes pollution from streets, parking lots, and lawns into storm drains, then directly into streams, rivers, lakes and the ocean.

Did you know more than 60 percent of water pollution comes from things like motor oil, fertilizers, pet waste, and detergents? By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater.

Quick Notes...

Allendale Green Team

The Allendale Green Team continues to focus on sustainable and responsible methods to reduce waste and promote energy efficiency in our community. Please send your questions regarding these topics to AllendaleGreenTeam@gmail.com. We can also assist in identification of ways to recycle items that are not collected through the municipal recycling program. Your suggestions and participation are always welcome.

Mark Savastano of Computer Savvy Inc is offering a FREE recycling collection of used computer equipment to Allendale residents including laptops, desktops, cell phones, tablets, etc. and associated wiring. Please call 201-400-5856 or 201-378-3798 for additional information and to arrange for pickup.

220/230 West Crescent Update

230 West Crescent was sold last year to Hampshire and they are currently renting out the space. This allowed Allendale to pay down a good portion of the debt.

220 West Crescent is much more complex and things have been slow. Hampshire reached out to several builders to bid on the both the residential and municipal building. The bidding process was arduous and complicated as we wanted it broken down line by line and as detailed as possible. The process took upwards of 6 months. The bids came back over budget due to Covid, inflation and the supply chain issue. The next step is to present this finding to the council sometime in February and discuss our options. We need to evaluate all scenarios from a cost perspective, legal perspective, needs/value perspective which takes a significant amount of research. The website is updated quarterly in a special tab for [220/230 2022 Updates | Allendale, NJ \(allendalenj.gov\)](#).

ALLENDALE POLICE DEPARTMENT

REMINDER - It's NJ law to come to a STOP at a YELLOW LIGHT and to not block the intersection!

We have received numerous complaints about the intersection of Myrtle Avenue and W. Crescent Ave. specifically in the morning, during school drop off hours.

As a friendly reminder to all motorists, New Jersey state law requires motorists to stop for both amber and for red signals. Intersections may only

be entered once the signal turns amber if a vehicle is so close as to not be able to stop safely, which by statute is within 50 feet. Regardless of traffic volume or speed no person should enter an intersection against the red signal. For detailed law on amber and red lights use an internet search engine and enter, "New Jersey statute 39:4-105." Fine is \$86 with two license points.
