Mayor Wilczynski reviewed the following Ordinances:

- **Introduction of Ordinance #26-08:** AN ORDINANCE TO AMEND CHAPTER 53 OF THE CODE OF THE BOROUGH OF ALLENDALE, “OFFICERS AND EMPLOYEES”, TO FIX THE SALARIES, WAGES AND COMPENSATION OF THE OFFICERS AND EMPLOYEES OF THE BOROUGH OF ALLENDALE FOR THE YEAR 2026. Mayor Wilczynski stated this is to enter in a new condition that we’re going to have for our police station. Somebody who is going to be standing in the lobby to greet people as we transition over to Ramsey Dispatch.

**Mayor and Council of the Borough of Allendale
Regular Meeting of Mayor and Council – March 12, 2026**

- **Introduction of Ordinance #26-09: CAPITAL ORDINANCE OF THE BOROUGH OF ALLENDALE, IN THE COUNTY OF BERGEN, NEW JERSEY AUTHORIZING VARIOUS PUBLIC IMPROVEMENTS AND ACQUISITIONS IN, BY AND FOR THE BOROUGH, APPROPRIATING THEREFOR THE SUM OF \$349,000 AND PROVIDING THAT SUCH SUM SO APPROPRIATED SHALL BE RAISED FROM THE CAPITAL IMPROVEMENT FUND OF THE BOROUGH.** Mayor Wilczynski stated that this is part of our Capital Ordinance. We wanted to get some things going for the spring as we finalize the rest of our capital. This one is for fields, some record management system, a sign in front of borough hall and vehicles for the police. We can get those moving.
- **Introduction of Ordinance #26-10: AN ORDINANCE TO AMEND, SUPPLEMENT AND REVISE THE CODE OF THE BOROUGH OF ALLENDALE, CHAPTER 199, PROPERTY MAINTENANCE, ARTICLE V, MAINTENANCE STANDARDS.** Councilpresident Lovisolo stated that we love all of our businesses in our town and our business owners. There are, however, some situations downtown where some of the buildings are in slight disrepair. This ordinance is tweaking our code, which referenced repainting metal and wood, and we just changed that to mean all surfaces because, as you know, much of our downtown can be stucco and brick. We just changed that and we also included something that we had been following up on but wasn't really specifically worded, awnings and mold on awnings. This is just an effort to encourage our business owners to maintain their property and landlords to also maintain the property in which they have their businesses in.

Mayor Wilczynski stated this is a continuation of all of the work that we're doing in our downtown as well with our streetscape.

Mayor Wilczynski reviewed the following items on the Consent Agenda.

RES 26-105:	RESOLUTION AUTHORIZING REFUND OF TAX OVERPAYMENT.
RES 26-106:	RESOLUTION AUTHORIZING THE EXECUTION OF A SHARED SERVICES AGREEMENT BETWEEN THE BOROUGH OF ALLENDALE AND THE BOROUGH OF RAMSEY FOR THE PROVISION OF PUBLIC SAFETY DISPATCH SERVICES.

ADMINISTRATION

Council Committee Reports

Councilman Yaccarino, Facilities, Parks and Recreation/Land Use and Construction Code Report: Councilman Yaccarino stated last week, you and I were very honored to attend the folk Christian brunch at Cedar Hill Church in Wyckoff. It’s always a very inspiring morning. We have two group homes in town, and they do a fabulous job there. They are great members of our community and we’re so happy to have them.

Mayor and Council of the Borough of Allendale Regular Meeting of Mayor and Council – March 12, 2026

Councilman Joseph Daloisio, Public Works & Public Utility/ Public Safety Report: Councilman Daloisio stated that the DPW committee met and it was a good meeting overall. We discussed a lot of the planning and preparation that's going into place right now to get Crestwood ready for opening. The team has been working to put everything together. They had planned to start this Monday to start doing some cleanup work at Crestwood. Chemicals and everything are getting ready and gravel in the parking lots. They are going to be checking the concession stand and start getting that prepped so it will be ready for opening day. Fields, as Councilman Yaccarino mentioned, now that the weather is starting to break, fields will start to get prepped for opening day. The guys have everything scheduled and ready to go. They are cleaning along the fence lines and getting everything prepped where it needs to be.

As you know, we had a lot of snow. There were a few meetings. It went pretty well with our snow removal contractor around town. There was a lot of snow removed. There was a lot of coordination. I think we're in a good place.

We discussed checking our signs around town and good coordination and communication with our police department as they drive around town. I know they note if they see broken signs or signs bent over. The DPW is going to be communicating with them to make sure that it gets coordinated to fix them as needed. Our backhoe had a leaky axle. That's in Caterpillar getting fixed right now. Our crew chiefs have been in place now for a couple of months. Everything is going well with them. Good communication and good coordination and the team seem to be flowing and working well together. Things are advancing in the right direction.

Councilwoman Susanne Lovisolo – Finance, Human Resources, Administration & IT, Land Use and Construction Code Report: Councilpresident Lovisolo stated, I was happy to be a part of interviews for a new position in our construction department. We wish Linda Garofalo all the best on her retirement and we welcome Joanne to our team. It's been a busy stretch. We had a wonderful Town Hall. We also had a 250th parade meeting. We had a finance meeting on March 2nd with our CFO. Good news for the library, because of our increased assessments, the library will be receiving almost an additional \$100,000 this year.

We had a ribbon cutting in town of a business that has been here, but in a new location, Pilates. We had a shade tree meeting on March 3rd. We're looking at tweaking at two ordinances in relation to shade trees that just updates the listing of our shade trees in towns. We're also going to be addressing the removal of trees in town and trees I recommended to be replanted as well as if you don't have the capacity or don't wish to be replanting trees on your property, you can add to a create-a-tree fund in town. That will all be codified in an ordinance. Also, there was a Green Team meeting recently and they are going to be adding another focus to their area of food waste and focusing on food waste and how to help our restaurants and all of us address food waste. Our next Land Use Committee meeting will be on the morning of March 26th.

Mayor and Council of the Borough of Allendale Regular Meeting of Mayor and Council – March 12, 2026

Staff Reports:

Linda Louise Cervino, Municipal Clerk's Report. Linda Cervino stated Compost permits went on sale yesterday, March 10th, so that's ongoing.

Legal Notices are up on the borough Website. So, rather than sending our legal notices to the newspaper, we post them on our Borough website. This will save the borough a lot of money because advertising in the newspaper is costly when you have a bunch of items to be posted. I will be posting the notices the day after the meeting. And per the Community Development Block Grant (CDBG) Contract Administrator, Community Development is a federal grant program that requires advertisement in the newspaper and the paper's website. So, limiting advertising of capital projects on a municipality's website is not acceptable under their regulations."

On the Secretary of State's public notice webpage, I registered the Borough of Allendale and Nancy registered The Lee Memorial Library. All municipalities in NJ will be listed with their direct link to their public notice page so that's just another way of people finding the direct link to borough websites.

On Friday, March 6, 2026, I had a Lunch & Learn called Municipal Clerk as a Wedding Officiant which explained the new law and provided guidance and insights for municipal clerks performing weddings and civil unions.

Michael Dillon, Police Chief's Report: Police Chief Michael Dillon stated the following:

Thank you madame mayor. I'll start with a little about how we got to this point. As I was preparing for tonight, I looked back at my files and found when the dispatch consolidation conversations started. In August of 2011, I created this worksheet containing questions asked of agencies who would potentially dispatch for us and in turn, Allendale could possibly take on.

The conversation continued into February 2013 when I compiled a list of questions and concerns after touring the county facility. Truth be told, shared service dispatch was always a topic of conversation in the Bergen County public safety community. The conversations continued due to many reasons; financial, employee recruitment & retention, and regionalization of emergency services to better serve the public.

Fast forward to 2024, which brought the need for major upgrades to equipment at our dispatch room. The overall cost would have been somewhere in the ballpark of \$500-700,000. At that point, the yearly cost to run the communications desk was \$350,000, salaries, benefits, equipment maintenance, etc.

Before this capital approval proceeded, the public safety committee, Borough Admin/CFO Alison Altano and I discussed other options. We toured communication centers run through a consortium, county government, and local government. Detailed analysis and feasibility studies were conducted which led us to our ultimate decision. The committee had many requirements including the new agency retaining our existing employees, leveraging new technologies, and the idea that the contracted dispatch center would be an extension of our police HQ, working hand in hand.

Mayor and Council of the Borough of Allendale Regular Meeting of Mayor and Council – March 12, 2026

Absolutely every aspect and impact resulting from this decision was considered. I am confident that the choice we made will have the least impact on the community and the department. Our dispatchers were given full-time positions with Ramsey including an increase in salary and supervisory role. Allendale Emergency Services communications will be streamlined; everyone including Police, Fire, EMS, DPW on the same platform. Our mutual aid partner Ramsey will have constant situational awareness about what is occurring in our borough. The cost savings to the borough long term will be meaningful and the police station remains open to the public 24 hours a day. We are streamlining police administrative duties while still maintaining the services our residents expect.

Thank you to the committee, to Alison, to our employees, and the public for their cooperation and collaboration into this project which will finally launch next Monday March 16th. I would be remiss if I didn't acknowledge Jim Coban and his team at Coban Computer Solutions. I have never worked more closely with a vendor and due to their knowledge and skill, we have essentially connected Allendale Police Headquarters with Ramsey Police Headquarters for seamless operations. I am looking forward to working with our new partners, experiencing the latest technology, and seeing all of our planning and effort in practice.

Mayor Wilczynski thanked Mike Dillon and acknowledged how much time and effort he put into this. Aside from the emergency services not being impaired at all, the fact that you really wanted to make sure that our dispatchers were taken care of and our residence we're taking care of on the other side just having that comfort of the lobby being open. I have no doubt this is going to be a very successful transition, and I look forward to another four.

Raymond Wiss, Borough Attorney's Report: Attorney Ray Wiss reported that, in addition to working with the Chief, Administrator, and Clerk on routine matters and items related to the evening's agenda, the majority of his time over the past two weeks was devoted to implementation issues concerning Veolia and other related matters, as well as matters involving the Saddle River Sewer Authority. He also participated in multiple calls with the Mayor and Councilwoman Homan.

MAYOR'S REPORT:

Mayor Wilczynski stated the Town Hall was a success. We went over the Fair Share Housing update. We are still wrapping up a couple loose ends, as Ray mentioned, with Saddle River. We will be sending out a memo trying to explain everything. It's taking quite a bit of time to dry to consolidate everything but, hopefully, we'll get something out that's nice and clear. As Councilpresident Lovisolo mentioned, we have our 250th committee in place. We've had two meetings already. The last one was with the Chief of Police and we're working out logistics of our big parade. That's going to lead into the big event that the Holiday Observers is having in September.

We're still going through the budget, line-by-line. We have our newly branded committee, Community Financial Engagement Committee (CFEC). We used to have what we called a finance advisory committee, but we rebranded a little bit so we could give some of the financial minds in the community a little bit of insight into what we're dealing with in the budget and how to be a voice for the community and understand what we're doing. They all gave us great feedback, and they felt very comfortable with the budget and the budget process. Some of them did give us some ideas given the different specialties that they're in. We're going to have that twice a year now. If anyone financially wants to join you are very welcome to.

Mayor and Council of the Borough of Allendale
Regular Meeting of Mayor and Council – March 12, 2026

We are having a meeting tomorrow to revisit the roads. We keep a list of roads and potholes in the order of worst to best. Since we've had so much snow and there's been a lot more damage, we might have to shift a little bit. We are meeting the engineer in the morning to re-evaluate that.

We've been going over many grants and collecting data for a couple different grants that we will announce shortly, but we are trying to get grants for everything that we do. One of them is a shade tree grant for 250 trees around the borough over five years, but it will also be in line with our 250th celebration.

One of the projects that we're doing, which is on the capital budget, is the transit lot. We're going to add some trees there. The strip of land that is pretty overgrown across from our fire station. That will be a really nice addition to the town.

I had two mayors' meetings back-to-back; one was my regular league meeting, and one was for all the mayors in District 5. Congressman Josh Gottheimer was hosting both of them. A lot of great information and a lot of really interesting insights in Washington. A lot of funny stories as well. It's good to see somebody cross the lines and try to get stuff done because there is some divide there and he seems to do a pretty good effort crossing the lines and get some work done. I have another mayor's meeting this Saturday. I look forward to that with the Northwest mayors.

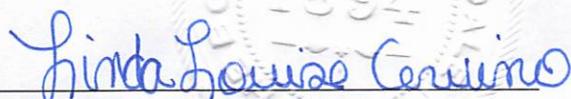

UNFINISHED BUSINESS/NEW BUSINESS: There was no unfinished business or new business.

PUBLIC COMMENTS ON ANY MATTER: Walter Widmer, 38 Hamilton Street, asked how long an ordinance lasts once it's passed. Mayor Wilczynski stated that we are constantly updating them as things change in the borough to try to keep them current. Attorney Ray Wiss stated they do remain on the books until they change affirmatively. They become part of the governance of the borough.

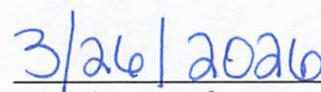

ADJOURNMENT:

There being no further business to come before the Mayor and Council, on a motion by Councilman Yaccarino, second by Councilwoman Lovisolo and unanimously carried, the work meeting was adjourned at 7:30 p.m.

Respectfully submitted,

Linda Louise Cervino, RMC
Municipal Clerk

Attn: Andrew Agugliaro, CPWM, Superintendent

I. PURPOSE

The Borough of Allendale (herein called “Client”) has requested from Flow Assessment Services, LLC (herein called “Subconsultant”) a proposal for specialized services in The Borough of Allendale, NJ. This document represents Subconsultant’s proposal to perform the requested services and includes the following:

1. A listing of the services to be provided;
2. A detailed description of the scope of services to be provided;
3. A list of Client responsibilities;
4. A list of mutual agreements between the two parties;
5. An estimated time of performance of the requested services; and
6. A fee schedule for the requested services.

II. SCOPE OF PROFESSIONAL SERVICES TO BE PROVIDED

The specific services to be performed by the Subconsultant shall include the following:

- A. The study area consists of select portions of Allendale sanitary sewer system. The system will be investigated for the purpose of identifying infiltration and inflow.
- B. The Scope of Specialized Services shall include the following items and estimated work quantities.

Item #	Description of Tasks	Estimated Quantity
1	Pre-Smoke Testing Meeting, Notifications, Smoke Testing, & Reporting of Estimated 20,500 LF	4 Days

C. SMOKE TEST PROCEDURES

Smoke testing will be conducted in predominantly separated sanitary sewer systems using the single blower technique.

Smoke testing will be conducted during the periods of low groundwater and with sufficient time having elapsed from a previous rain event. No testing will be conducted if the ground is frozen. Prior to initiating smoke testing, police and fire officials will be notified. Homeowner notification will also be conducted prior to initiating smoke testing.

Defect location will be performed during smoke testing, with digital photographs of the defect(s) and sketches of defect location created. Further, a written description of the defect (catch basin, roof drain, etc.) will be noted which will include estimated drainage areas as well as runoff coefficients, if applicable.

D. COMMUNITY COORDINATION/COMMUNICATION

Prior to initiating the smoke testing program, Flow Assessment Services crew leaders will meet with local public safety authorities (Police & Fire) to discuss the proposed program and establish a communication protocol to be followed. At a minimum “Daily Location Reports” (DLR’s) will be provided to all interested parties sent via fax or email. The DLR will contain the date of scheduled work as well as location selected for testing.

Flow Assessment Services will also provide to the public authorities a flyer with answers to frequently asked questions by the public. This will further aid safety dispatchers and public works personnel in dealing with customer questions.

PUBLIC NOTIFICATION

Residents/Occupants will be notified of upcoming smoke testing in their neighborhoods by the distribution of a flyer. Each house/building will be identified in advance and be provided with a “Smoke Test Notice” or “Sewer Work Notice” at least 24-72 hours prior to any testing (weather, holidays, and weekends may shift test periods beyond the 24-72 hours timeframe).

E. REPORTS – The smoke testing reports will consist of the following:

TABLE 1 – SUMMARY OF FINDINGS

This table will identify the line section tested, dates of the test, street location, observations/defect identification, manhole to manhole line footages and drainage area/runoff coefficient of any defects identified. This table is also provided in digital format.

SMOKE TESTING LOG

This section of the report will include all the above information found in Table 1 but will also include a photo and sketch of the defects observed. This log is also provided in digital format.

TABLE 2 – SUSPECTED INFLOW SOURCES

Often during smoke testing, potential sources are identified but did not exhibit any smoke during the test (etc. roof drains that enter the ground or foundation). This table will identify and list each “Suspect” source by address/location and a description of the suspect source. This table is also provided in digital format.

APPENDICES 1 & 2
